Experiment 9 : GSM Service User Interface Prototype

Aim: To develop a user interface prototype for a GSM service using Figma.

Procedure:

1. Open Figma and create a new design file.
2. Create a desktop frame and add the title “GSM Service”.
3. Design a navigation menu with Home, Recharge, Usage, and Settings.
4. Create a balance card with a recharge button.
5. Add quick-action cards for calls, SMS, internet, and offers.
6. Create a usage summary showing calls, messages, and data.
7. Apply colors, icons, and text to improve the interface.
