Experiment 10: Multiple Access Techniques

Aim: To create a visual representation in Figma showing the differences between various multiple access techniques.

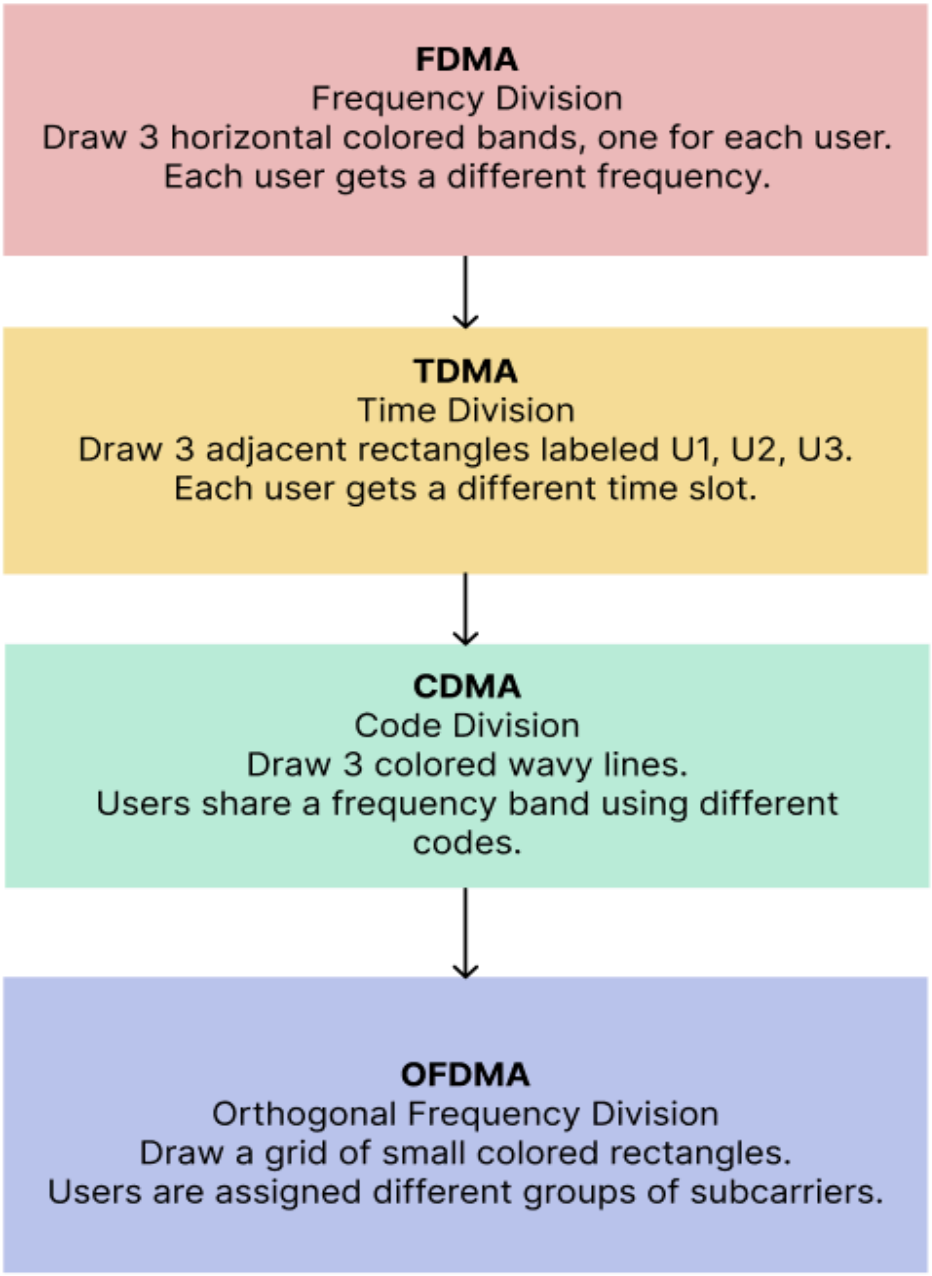

Procedure:

1. Open Figma and create a new frame.
2. Add the title “Multiple Access Techniques”.
3. Create four separate cards for FDMA, TDMA, CDMA, and OFDMA.
4. Draw simple diagrams using rectangles and lines to represent each technique.
5. Add a short explanation below each diagram.
6. Use different colors to distinguish the techniques.
7. Add a conclusion at the bottom of the infographic.
