Course Name: Mobile Computing

Experiment 12: Evolution of Mobile Networks from 1G to 5G Using Figma

Aim: To create an interactive diagram illustrating the evolution of mobile networks from 1G to 5G using Figma.

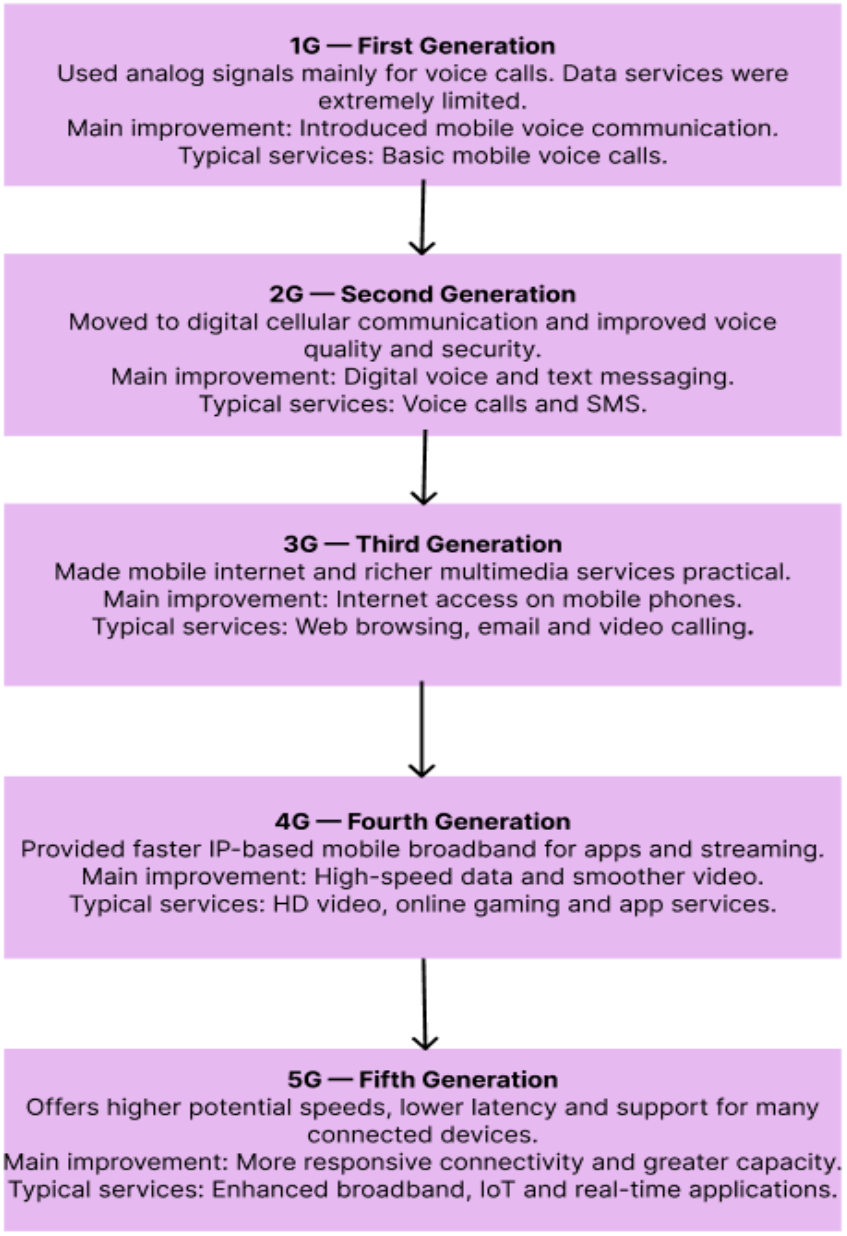

Procedure:

1. Open Figma and create a new design file.
2. Create a frame and add the title **"Evolution of Mobile Networks (1G to 5G)"**.
3. Draw five rectangles representing 1G, 2G, 3G, 4G, and 5G.
4. Add the key features of each generation inside the rectangles.
5. Use arrows to connect the generations in chronological order.
6. Add suitable icons and different colors to distinguish each generation.
7. Include the approximate decade of introduction for each generation.
8. Add short descriptions of the services supported by each generation.
9. Open Prototype mode and connect each generation to a frame containing detailed information.
10. Preview the design and check the interactive navigation between generations.

Output:

Result: An interactive diagram illustrating the evolution of mobile networks from 1G to 5G, highlighting their features and technological improvements, was successfully created using Figma.
