Course Name: Mobile Computing

Experiment 14: Design a Flowchart Explaining the Operation of General Packet Radio Service (GPRS) Using Figma.

Aim: To develop a simple flowchart in Figma explaining the working process of GPRS and how mobile data is transferred through the network.

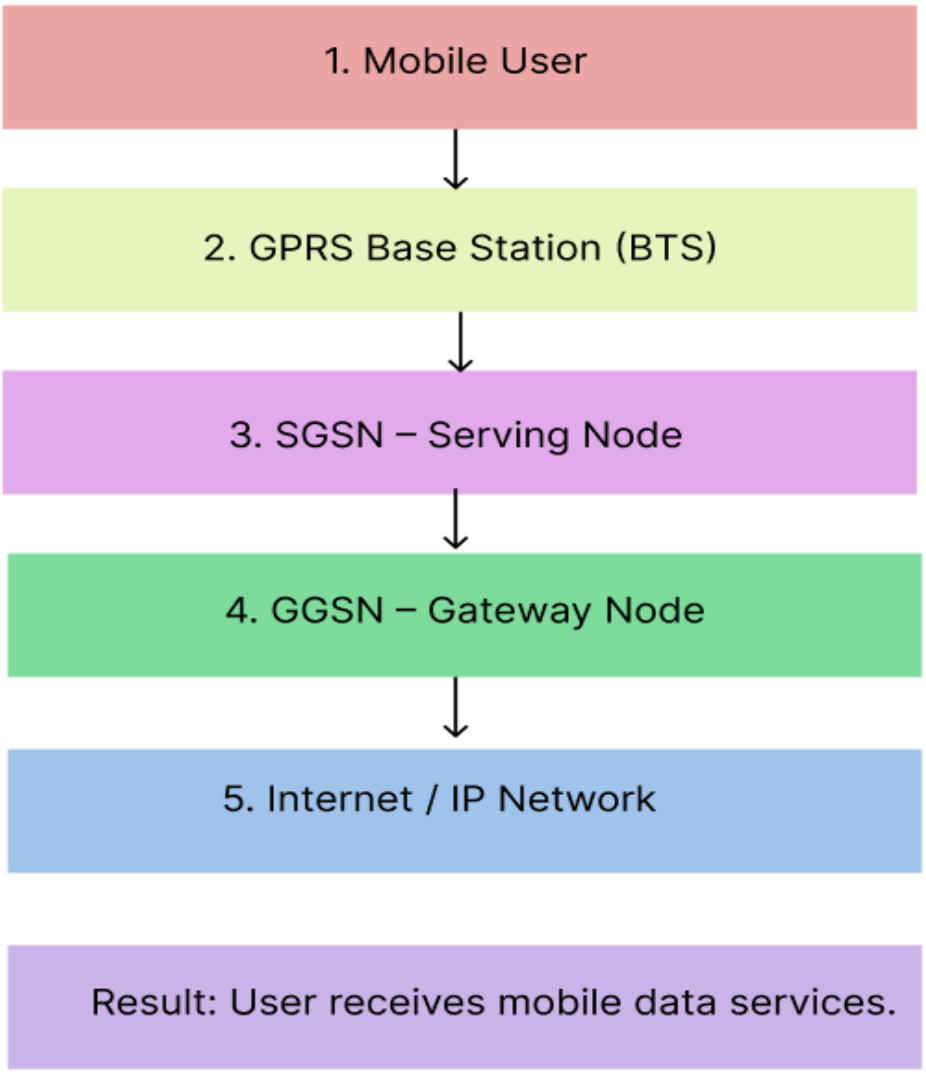

Procedure:

1. Open Figma and create a new design frame.
2. Add the title “GPRS Operation Flowchart”.
3. Draw rounded rectangles for Mobile User, GPRS Base Station (BTS), SGSN, GGSN, and Internet.
4. Connect all the boxes using arrows to show the data flow.
5. Add short descriptions for each stage.
6. Use different colors and simple icons to make the flowchart attractive.
7. Arrange all elements in the correct order.

Output:

Result: A simple GPRS operation flowchart was successfully designed in Figma, showing how data travels from a mobile user through the GPRS network to the Internet and back.
